

PP Metalized Tape

MT TAPE

Dimensions

Code	Width mm	Length m
TAPE	50	50
TAPE	75	50

Description

Single sided self adhesive tape with aluminium dust. Used to steam tighten AC or central heating systems. Due to its good adhesive properties and low side penetration by water and solvents, it is also widely used in other branches.

Material

Polypropylene (PP), metalized.

Colour

Shiny silver.

Temperature range

-20-80 °C.

Total thickness

0,05 mm.
