## Description

PKAN is a square diffuser with perforated face plate. PKAN can be used for both supply and exhaust air. PKAN is suitable for the horizontal supply of cooled air and can be equipped with accessories of various types in order to achieve optimum function. Installing a PKAN diffuser in a plenum box type MBA can help to achieve a stable airflow to the diffuser as well as realise the potential for individual adjustment.

- Suitable for both supply and exhaust.
- Suitable for the horizontal supply of cooled air.

## Materials and finish:

Standard material: Galvanised steel "G"  
(Available in stainless steel  
AISI-304 "S")

Standard finish: Powder coated

Standard colour: White RAL 9010, gloss 30

The diffuser is available in other colours. Please contact Lindab's sales department for further information.
