lindQST

- Lindab Quick Selection Tool...

“We simplify construction” has long been one of Lindab’s core values. lindQST – “Lindab Quick Selection Tool” – an advanced web tool that makes the selection of our air- and waterborne products quick and simple. With lindQST all documentation is made available directly on the web. That means installers, consultants and architects always have access to the latest documentation, installation instructions and product images. It provides a simple shortcut to Lindab’s material and is a tool that speeds up and simplifies the daily work.

All information is just a mouse-click away.

- Lindab Quick Selection Tool...

lindQST - Documentation Finder

The *Documentation Finder*, is a quick and easy way to find information about our airborne and waterborne products. Here you can find updated material as technical documentation, installation instructions, product images, brochures etc. Simply just use the drop down boxes to find what you are looking for - quick and easy...

Product Selector Air

Use the *Product Selector Air* to find the Lindab product that meet your demands when designing your projects with airborne solutions. Search among our wide assortment of diffusers, grilles, nozzles, valves etc. Perform a product search in three simple steps and achieve a product list with all the products that meet your requirements. In the product list, you have the opportunity to compare different products and select the best solution for your project. When selecting a product in the list you will get all detailed information and documentation on the selected product and you have the opportunity to generate a PDF with all the specific information and results for your actual choice.

Product Selector Water

Use the *Product Selector Water* or the *Product Calculator Water* to find the Lindab product that meet your demands when designing your projects with waterborne solutions. Search among our wide assortment of beams. Search from different parameters like room type, sound requirements and air flow. In your product list, you are able to compare the products in your selection. When you have chosen a product you can generate a pdf with the specific data you have chosen. *Product Selector Water* gives you the opportunity to define your room conditions and in three easy steps receive the recommended solutions using Lindab' beams, active, passive, facade and heating/cooling panels. *Product Calculator Water* is a simple and fast tool to calculate the capacity when the product type is known. Use the *Product Selector Water* and *Product Calculator Water* to make your selection fast and easy.
