

### Lindab Premax / Premum

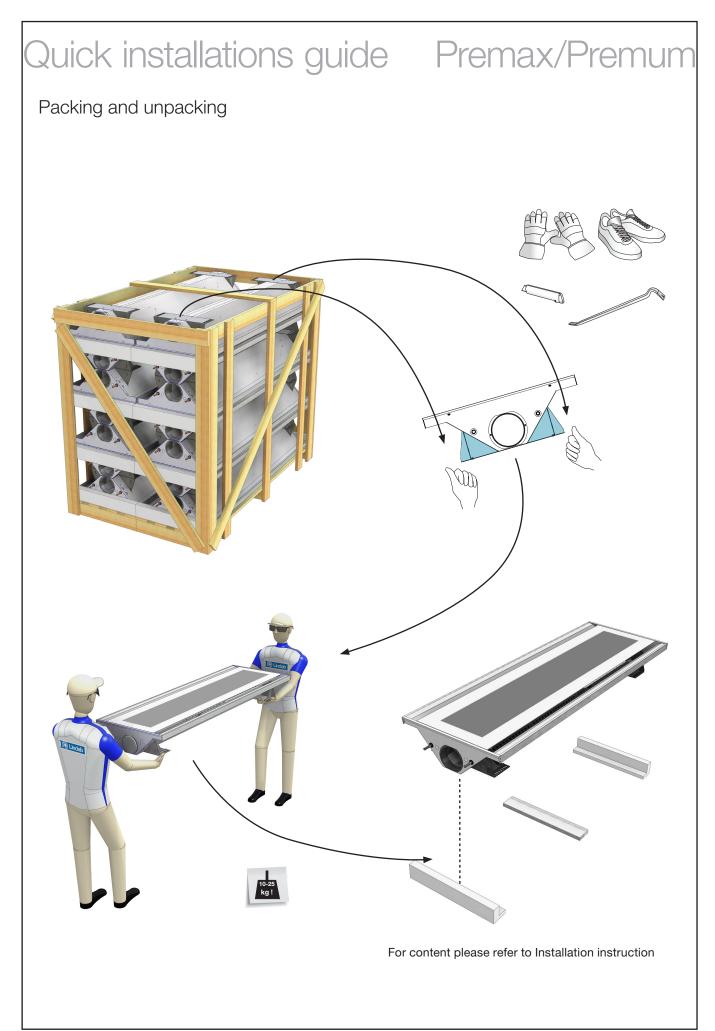

Quick installations guide

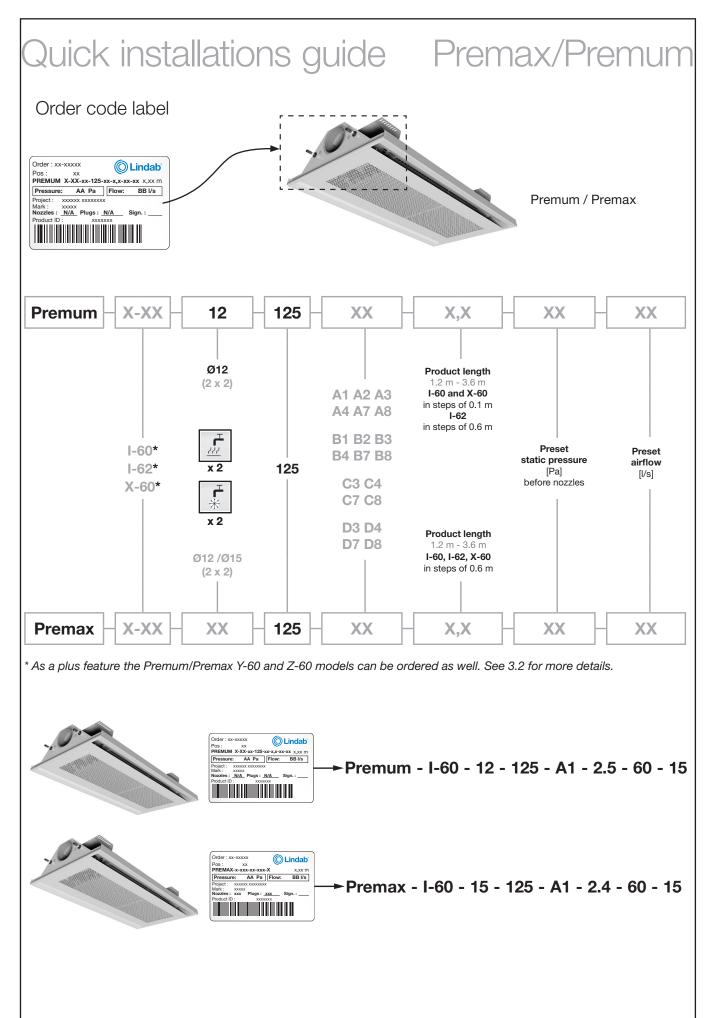

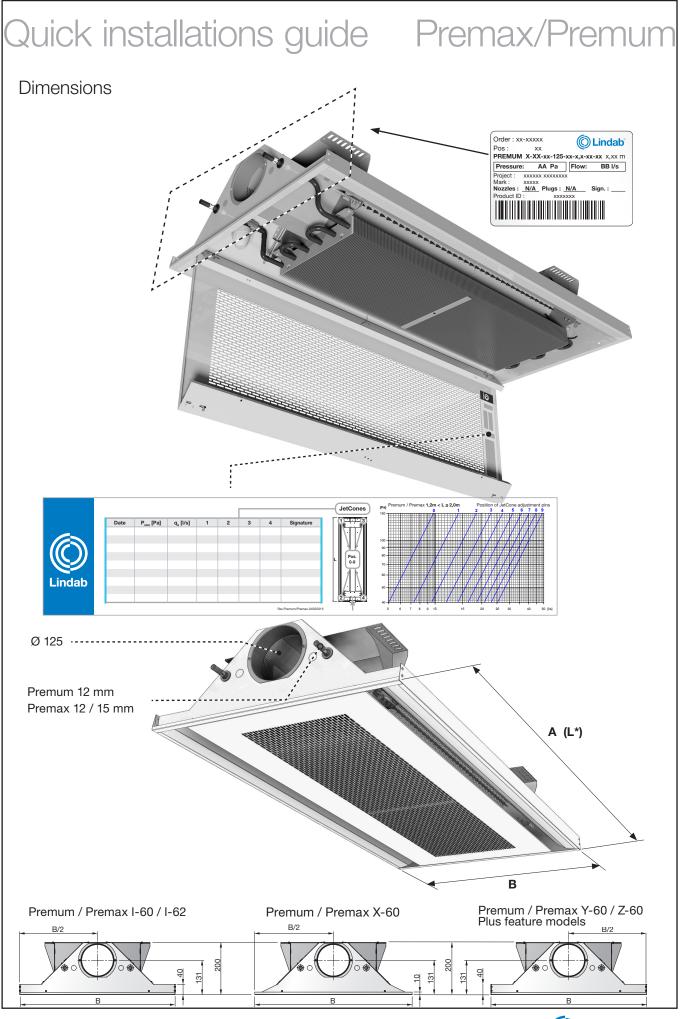

### Quick installations guide Premax/Premum

### Material data

Туре	Premum	Premax
Dry weight [kg/m]	15	18
Water content, cooling [l/m]	0.6	1.2
Water content, heating [l/m]	0.2	0.2
Copper pipes quality	EN 12735-2 CU-DHP	

#### **Environmental Declarations**

Please follow the links below

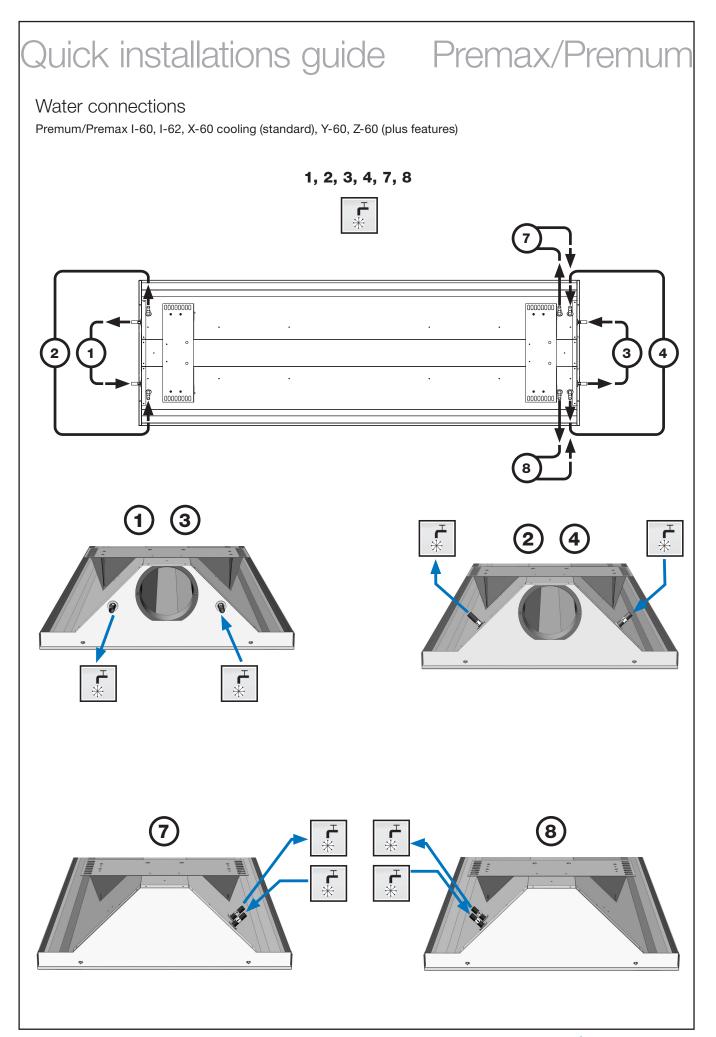

- Building product declaration
- Declaration of conformity
- Eurovent certificate

#### **Pressure Class**

The waterborne products in Lindab, active chilled beams (battery products), passive chilled beams (battery and strips products), facade units (battery) and radiant panels (strips and panels) are produced according to pressure class PN10 according to EN 1333: 2006.

This means the maximal working pressure for the products at a water temperature of 20°C must not exceed 10 bar.

 $\bigcirc$ 

Most of us spend the majority of our time indoors. Indoor climate is crucial to how we feel, how productive we are and if we stay healthy.

We at Lindab have therefore made it our most important objective to contribute to an indoor climate that improves people's lives. We do this by developing energy-efficient ventilation solutions and durable building products. We also aim to contribute to a better climate for our planet by working in a way that is sustainable for both people and the environment.

Lindab | For a better climate
