

# Aluminium Insulation Tape

# AI TAPE

## Dimensions

Code	Width mm	Length m	Type
TAPE	50	50	AI
TAPE	75	50	AI
TAPE	100	50	AI

## Description

Single sided self-adhesive aluminium insulation tape. Used in production and assembly of AC and ventilation devices, dust removing systems as well as heat engineering. To be applied on the insulation bends and forks, on material and mineral wool or glas wool segment connections. Ensures a coherent aluminium insulation layer which prevents water from penetrating the system. Hardly combustible according to DIN 4102-1 B1 standard.

### Material

Aluminium.

### Colour

Shining silver.

### Temperature range

-25-70 °C.

### Total thickness

0,075 mm.
