

Circular straight low-built silencer

KVDP

Description

KVDP is rectangular attenuator with circular connections and a low installation height. Attenuation material is Acutec® polyester. The KVDPX's are made from galvanized steel sheet. The KVDP comes in two different designs.

Design code:

7 = Attenuator with Acutec® polyester element
 8 = Accessible attenuator with access door and Acutec® polyester element. Attenuation material is washable and changeable

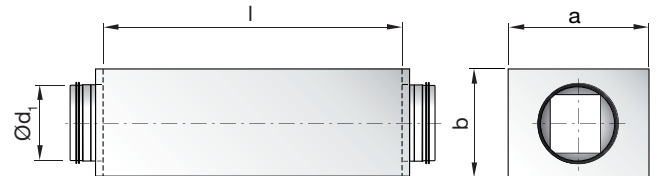

Tested according to ISO 7235 standard.

Special materials, sizes and flanges on request. Please contact Lindab sales.

To select the appropriate attenuator and optimize connection size and length for the best performance please use our online tool LindQST or our free to download software DIMsilencer.
