Description

TRO is a trolley which makes it substantially easier and more ergonomic to manually move circular ventilation ducts and other heavy products at the building site.

7

The trolley is suitable for ducts Ø 400–1250.

8

Trolley with loaded duct is easily moved by one person.
Maximum load: circa 100 kg.

9

Weight: 4,0 kg.

Advantages

- Very easy to load and unload the duct.
- Soft punctureproof tyres.
- The wheels manages passing of smaller obstacles and semi-rough surface.
- Foldable for easier storage.
- You can also use it to transport large fittings in the building place like for example silencers and bends in big diameters.
- More flexibility at the building site as you can work alone.
- Improved ergonomics and workig conditions as you reduce lifting of heavy products.
