Lindab Facade Cassettes

Lindab Coverline™

A beautiful surface that stands up to close inspection
Exclusive and tailor-made

You will give your property an attractive and durable exterior with Lindab’s Facade Cassette. The inspiration for the cassettes is taken from the pure, Scandinavian architectural tradition with its consistent lines and modern image.

You design the facade according to your own wishes
We simply tailor-make the cassettes so that they match the requirements and conditions that exist for your property. The same applies to the choice of colour. You can choose between our eleven standard colours or choose your own powder coating from a wider selection.

Lindab’s Facade Cassettes are developed for a demanding climate. They are manufactured in robust thin sheets and maintain their finish year after year.

Lindab’s Facade Cassettes in brief
• complete solution
• smart construction
• simple projection
• all the colours of the rainbow
• Art - possible to have bitmap punched images on the cassettes
Designing

Depending on how the building is to be designed, facade cassette Premium or façade cassette Classic will suit your building in different ways.

**Facade Cassette Premium**
Facade Cassette Premium is an elegant and durable wall covering system. It can be used to cover the whole facade, or just parts of it. The click-design facilitates the installation and minimizes temperature tension between the cassettes. To simplify the installation each cassette-size has its own ID-number marked on the installation drawing as well as on the cassettes. The cassettes are designed with drip angle to prevent corrugation. The bottom surface is also provided with punched holes, to increase the ventilation. When the cassettes are assembled, all fastenings are hidden.

**Facade Cassette Classic**
Facade Cassette Classic is a basic way of creating an elegant wall surface. When the cassettes are assembled, the attachments of the screws are visible.
Designing

This type of alignment can be made with both Facade Cassette Premium and Facade Cassette Classic.

Lindab Facade Cassette Art

Design your own unique facade cassette with Lindab Art Designer

**Facade Cassette Art**

Lindab Art Designer is a new way to create a unique expression on facades using your own design outline. By using pattern perforated facade cassettes your image or text can easily be placed on a facade. You can also choose to backlight the facade to get an extra effect when it's dark.

**Conditions for perforation**

Lindab will require artwork in the right resolution and size along with details of your preferred cassette type. We will then submit a proposal to be approved by the client before production. We reserve the right to modify or adjust the image to fit the facade.

It is also a prerequisite, that the client has the right to use the images provided.
Different solutions for different purposes

Complete solution
We have left nothing to chance. The lining of the windows and doors as well as the corner finish is designed to give the facade an elegant appearance. You acquire a complete solution where colour, surface and material create an exclusive ensemble.

Facade cassette Premium
Lindab’s facade cassettes Premium are very easy to assemble. It is simply a case of clicking them together and fastening with screws. This makes the assembly both quick and easy. A small, yet significant, detail is the cassette’s drip, which prevents water collecting in the joints.

Facade cassette Classic
Lindab’s facade cassette Classic allows you to, in an easy way, create elegant wall surfaces. You will with these cassettes also get greater freedom in choice of alignment.

Rubigo and Magestic
Lindab facade cassettes can also be delivered in weather steel material which after time will get a nice rust patina that lasts year after year.

Or Magestic (zinc magnesium) that is durable and ages in style over time.

All the colours of the rainbow
Lindab Facade Cassette Premium is available in two surface treatments, HBP and powder coating. Choose between our eleven tasteful standard colours or powder coating.

Choose powder coating and get an unlimited colour selection.
At Lindab, good thinking is a philosophy that guides us in everything we do. We have made it our mission to create a healthy indoor climate – and to simplify the construction of sustainable buildings. We do that by designing innovative products and solutions that are easy to use, as well as offering efficient availability and logistics. We are also working on ways to reduce our impact on our environment and climate. We do that by developing methods to produce our solutions using a minimum of energy and natural resources, and by reducing negative effects on the environment. We use steel in our products. It’s one of few materials that can be recycled an infinite number of times without losing any of its properties. That means less carbon emissions in nature and less energy wasted.

**We simplify construction**
