

Technical Declaration

Products:

Silencers with circular connection: BSLCU, BSLU, KVAP, KVDP, KVDP-90K, KVDP-90L, LRBCB, LRCA, LRCEC, PVA, PVAP, PVD, PVDP, SDI, SDO, SLBGU, SLBU, SLCBU, SLCU, SLGPU, SLGU, SLTR, SLU, SLXU

Intended use:

The products are used to lower the sound level in ventilation systems.

Lindab Indoor Climate Solutions declares that the characteristics and performances of the products supplied are in conformity with those described in the technical catalog at the edition current at the date of delivery. The technical catalog can be found at www.lindab.com.

The sound absorption, pressure drop and self-generated noise are measured and presented in octave band according to ISO EN-7235:2003.

The products reaches airtightness class C or D in a system according to EN 12237 and as a component to EN 15727. For specific tightness class visit www.lindab.com.

The insulation is protected to prevent fibers to enter the airstream.

The silencers does not contain any hazardous materials. For more information about the contents of the product download the building product declarations from www.lindab.com.
