BK04	21098
BSAB96	Q

Article description:

Other information:

A plastic ring to provide a neat finish to a hole where ducts pass through a wall.

Assessments at Byggvarubedömningen etc. are registered under the name "Täckbricka". It is also possible to use the article name as search criteria.

GRI - Global Reporting Initiative

3. DECLARATION OF CONTENTS

Chemical content

Enter chemical content for the whole article. The concentration is calculated at component level according to the principle of "once an article always an article".

Is there a safety data sheet for the article?	Is there classification of the article?
Not applicable	Not applicable
Enter which version of the candidate list has been used (Year, month, day)	For complex products, the concentration of included substances has been calculated at:
	component level
The article is covered by the RoHS Directive:	Enter the weight of the article:
No	
Enter how large a proportion of the material content has been declared [%]:	
100	
If the article contains nanomaterials deliberately added to obtain a particular	function, enter these here:
The product does not contain deliberately added nanomaterial	
Is the article registered in Basta?	Enter the proportion of volatile organic substances [g/litre], applies only to sealants, paints, varnishes and adhesives:
Yes	
Other information:	

Article and/or sub-components

Comment		
Comment		
Component Duct hole cover	Weight% of product	
Phase Delivery		

Material	Substance	Concentration interval (%)	EG/CAS/Alternative designation	Candidate list	Phasing-out substance
Plastic	HIPS	>96	9003-55-8		
Plastic	White mineral oil	<4	8042-47-5		

4. RAW MATERIALS

Raw materials

Total recycled material in the article

Is recycled material included in the article?	

Renewable material	
Enter proportion of renewable material in the article (short cycle, less than 10 years):	Enter proportion of renewable material in the article (long cycle, more than 10 years):
0	0
Included biobased raw material is tested according to ASTM test r	method D6866:
Is there supporting documentation for the raw materials for third-party ce recycling processes or similar (for example BES 6001:2008, EMS certific	ertified system for control of origin, raw material extraction, manufacturing or cate, USGBC Program)? If yes, enter system(s):
No	
Wood raw materials	
Wood raw materials are included	Included wood raw material is certified
How large a proportion is certified [%]?	
What certification system has been used (for example FSC, CSA, SFI wi	ith CoC, PEFC)?
Reference number:	
Enter logging country for the wood raw material and that following criteria	a have been met. Country of logging:
Deep not contain turn of wood or crisis in CITES appointly of and	
Does not contain type of wood or origin in CITES appendix of end	
The timber has been logged legally and there is certification for th	is
ENVIRONMENTAL IMPACT	
Environmental impact during life cycle of the	article, production phase module A1-A3 under EN
Has environmental product declaration been drawn up according	to EN 15804 or ISO 14025 for the article?
These product-specific rules, known as PCR, have been applied:	Registration number / ID number for EPD:
These product-specific fales, known as 1 ore, have been applied.	registration number / ID number to Et D.
Climate impact (GWP100) [kg CO2-eq]:	Ozone depletion (ODP) [kg CFC 11-eq]:
Acidification (AP) [kg SO2-eq]:	Ground-level ozone (POCP) [kg ethene-eq]:
Eutrophication (EP) [kg (PO4)-3-eq]:	Renewable energy [MJ]:
Non-renewable energy [MJ]:	If calculation has been made in Green Guide, enter which rating:
If there is environmental product declaration or other life cycle assessme from a life cycle perspective:	ent, describe how the environmental impact of the article is taken into account
Region of final manufacture: Asia	

5.

6. DISTRIBUTION

Distribution of finished article

Does the supplier use Retursystem Byggpall?	Does the supplier apply any system with multiple-use packaging for the article?
Yes	No
Does the supplier take back packaging for the article?	Is the supplier affiliated to a system for product responsibility for packaging?
No	Yes
If yes, which packaging and which system?	
Förpacknings & Tidningsinsamlingen	
Other information:	
If possible products are packed together. The packaging materia All packaging consists of recyclable material, the cardboard Linda Shipments of manufactured goods are mainly transported by truck	als include wood, cardboard, and plastic wrap. Wooden pallets are being reused. ab uses for packaging consist of 97,5% recycled material.
CONSTRUCTION PHASE Construction phase Does the article make special requirements in storage? Yes Specify	to the edistance. The average transporting distance is 4500 km.
CONSTRUCTION PHASE Construction phase Does the article make special requirements in storage? Yes	
CONSTRUCTION PHASE Construction phase Does the article make special requirements in storage? Yes Specify To prevent soiling and oxidation, the product should be stored pr	rotected from the weather.
CONSTRUCTION PHASE Construction phase Does the article make special requirements in storage? Yes Specify To prevent soiling and oxidation, the product should be stored pr See Lindab's product catalogue for more information. Does the article make special requirements for surrounding build	rotected from the weather.
CONSTRUCTION PHASE Construction phase Does the article make special requirements in storage? Yes Specify To prevent soiling and oxidation, the product should be stored pr See Lindab's product catalogue for more information. Does the article make special requirements for surrounding build products?	rotected from the weather.

Other information:

8. USE PHASE

Use phase

9.

Does the article make requirements for input materials for operation and maintenance?
No
Specify:
Does the article require supply of energy during operation?
No
Specify:
Estimated technical service life for the article:
>50 years
Comment:
Lifetime depends on the environment where the product is being used. Corrosive environments can affect the life of the product negatively. There is a special instruction for the care of this product, see Lindab's product catalogue for more information. The product can be adapted to work with new tech.
Is there energy labelling under the Energy Labelling Directive (2010/30/EU) for the article? If yes, enter labelling (G to A, A+, A+++, A+++):
Not applicable
Other information:
DEMOLITION
Demolition
Is the article prepared for disassembly (dismantling)?
Is the article prepared for disassembly (dismantling)? Not applicable
Not applicable
Not applicable
Not applicable Specify: Does the article require special measures for protection of health and
Not applicable Specify: Does the article require special measures for protection of health and environment in demolition/disassembly?
Not applicable Specify: Does the article require special measures for protection of health and environment in demolition/disassembly? No
Not applicable Specify: Does the article require special measures for protection of health and environment in demolition/disassembly? No

10. WASTE MANAGEMENT

Delivered article

Is the supplied article covered by the Ordinance (2014:1075) on producer responsibility for electrical and electronic products when it becomes waste?
No
Is reuse possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
The entire product can be reused.
Is material recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
~98% of the material can be recycled.
Is energy recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Heat recovery occurs at smelter.
Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?
Yes
Specify:
Should be recycled according to recommended waste code.
Waste code for the delivered article when it becomes waste
170203 - 03 Plast.
When the supplied article becomes waste, is it classified as hazardous waste?
No
Mounted article
Is the mounted article classified as hazardous waste?
No

11. INDOOR ENVIRONMENT

Indoor environment

The article is not intended for indoor use			
The article does not produce any emissions			
Emissions from the article not measured			
Does the article have a critical moisture state?			
No			
If yes, state what:			
Noise	Electrical field	Magnetic fields	
Can the article give rise to own noise?	Can the article give rise to electrical fields?	Can the article give rise to magnetic fields?	
No	No	No	
Value:	Value:	Value:	
Unit:	Unit:	Unit:	
Measuring method:	Measuring method:	Measuring method:	
Paints and varnishes			
The article is resistant to fungi and algae in use in wet areas			
Fmissions			

The article produces the following emissions in intended use:
