

Aluminium Insulation Tape

AITAPE

Dimensions

Code	Width mm	Length m
AITAPE	50	50
AITAPE	75	50
AITAPE	100	50

Description

Single sided self-adhesive aluminium insulation tape. Used in production and assembly of AC and ventilation devices, dust removing systems as well as heat engineering. To be applied on the insulation bends and forks, on material and mineral wool or glas wool segment connections. Ensures a coherent aluminium insulation layer which prevents water from penetrating the system. Hardly combustible according to DIN 4102-1 B1 standard.

Material

Aluminium.

Colour

Shining silver.

Temperature range

-25–70 °C.

Total thickness

0,075 mm.
