

Circular straight silencer

SLU

Description

SLU is a circular straight silencer.

Nominal insulation thicknesses are 50 mm or 100 mm.

Attenuation material is mineral wool. The SLU's are made of strong outer spiral seamed tube and an inner tube made of sheet steel with small openings to be able to withstand mechanical cleaning and at the same time not interfere with the insertion loss.

The space between the inner and outer ducts is filled with mineral wool and the inner duct is covered with a nonwoven cloth to prevent fibres from getting into the duct system.

SLU can be cleaned by rotating nylon brushes, vacuum cleaner or damp cloth.

Tested according to ISO 7235 standard.

For special requirements such as material, sizes and flanges - this can be made on request. Please contact Lindab sales.

Order code

Product	SLU	200	900	50
SLU				
Connection ($\varnothing d_1$) in mm				
63 - 400 mm (50 mm insulation)				
315 - 800 mm (100 mm insulation)				
Length (l_{nom}), in mm				
300 - 1200 mm (50 mm insulation)				
600 - 1500 mm (100 mm insulation)				
Nominal insulation thickness in mm				
50 or 100 mm				

Example: SLU 200 - 900 - 50

Technical data

To select the appropriate attenuator and optimize connection size and length to achieve the best performance please use our online tool **LindQST**.

SLU

Dimensions and sound data

Dimensions and sound data for silencer with 50 mm insulation.

Ø ≤315

Sizes ≤315 are supplied with preinstalled Safe-connectors.

Ø ≥400

Size ≥400 is supplied with loose NPU-couplings.
