

Marking pen

PICA

Technical data

Length	160 mm
Width	17 mm
Weight	0,02 kg

Description

Pen for marking on most surfaces/materials – also when dirty, wet or oily.

From shiny surfaces the marking can simply be wiped of with a damp cloth or alike.

A 6,5 mm thin and 40 mm long tip of stainless steel makes it easy to mark in narrow spaces, e.g. deep holes for screws in consoles.

A solid 2,8 mm fat lead is fed with a push of the thumb.

A sharpener for the lead is integrated in the sheath.

A solid, protective sheath with a sturdy clip makes for a simple and secure fastening to a pocket.

A bright fluorescent green colour of the sheath with a high visibility makes it easy to find the pen should it be mislaid or dropped.

Accessories

PICASET - set of 20 pcs of pens

PICAREF - set of 10 pcs lead refills

Colour of lead

Graphite grey
