

# Slide-on stub

PTR

## Dimensions

### Description

Slide-on stub for installation in ducts of type LRTR.

After the duct has been shortened/fitted the slide-on stub is inserted into the duct, after which the slide-on stub is sealed and fixed with putty or an sealing clamp such as MFK.

Turn the join during assembly, to face away from the direction of air flow.

Please refer to the shortening instruction on page 12.

Ød nom	t mm	l mm	m kg
