

Mounting frame

MFS

Description

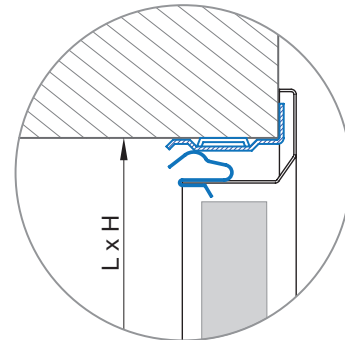

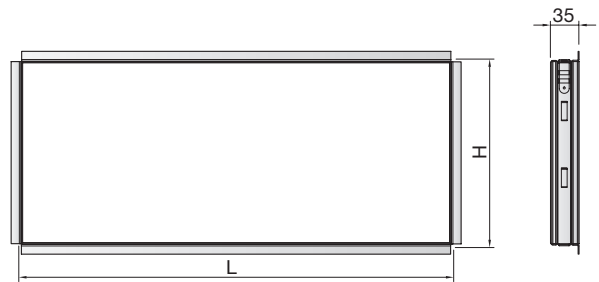

The MFS mounting frame used for supply and extract steel grilles is a strong frame on which the visible grille frame can be held in place by for example fixing clips. Having installed the grille, the MFS mounting frame will not be visible. The MFS mounting frame facilitates the frequent need to remove the grille for cleaning, inspection or filter changing. Giving easy access to the inner parts and duct without the use of screws or tools.

Maintenance

Remove the grille to gain access to the inner parts or duct. Internal and external parts should be wiped with a damp cloth.

Min. - max. dimensions

The MFS mounting frame is available in sizes (L x H) - from 225 x 75 mm up to 1225 x 525 mm in steps of 50 mm. Special sizes are available on request.

The grille is installed on the MFS by clips .

Order code

Product	MFS	aaa x bbb
Type		
MFS		
Size
