

Perforated diffuser

CBAV

Description

CBAV is a low-impulse diffuser for ceiling installation against a wall or skirt. The diffuser is suitable for the supply of replacement air in laboratories, commercial kitchens, etc. The diffuser is equipped with adjustable nozzles behind the perforated face plate, allowing the dispersal pattern to be adjusted according to the conditions.

Maintenance

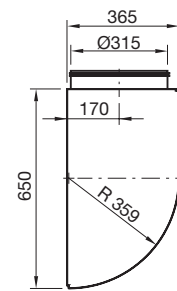

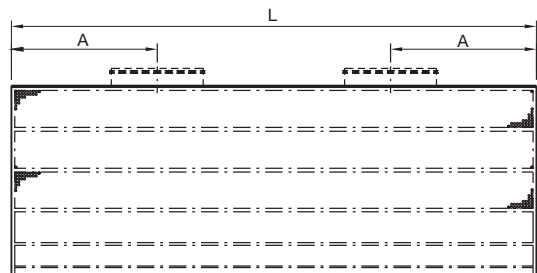

The face plate and nozzle tray can be removed from the diffuser to enable cleaning of the nozzles. The visible parts of the diffuser can be wiped with a damp cloth.

Order code

Product	CBAV	bbbb
Type		
Size	1200 1800	

Dimension

L Size mm	A mm	ØD mm	Number of connections
