

# Heavy duty knife

# KNIFE

## Description

KNIFE is a sturdy and durably sharpened knife for tough tasks e.g. hole-making in ventilation ducts e.g. at cutting with shears.

The blade is manufactured of 3 mm Japanese carbon steel and sharpened with double edge angles.

The handle and sheath are manufactured of extra impact resistant PP plastic.

## Advantages

- The sheath has a unique function to attach around a button on the clothing or to a belt so it doesn't fall off, at the same time it is easy to remove.
- Due to the thickness of the blade and the double edge angles it makes a perfect hole in the duct when cutting with a nibbler.
- More rigid compared to other knives when used to make hole in steel ducts.
