

Grille Global version

MFA

Description

The MFA mounting frame used for supply and extract aluminium grilles is a strong frame on which the visible grille frame can be held in place by fixing clips. Having installed the grille, the MFA mounting frame will not be visible.

The MFA mounting frame facilitates the frequent need to remove the grille for cleaning, inspection or filter changing. Giving easy access to the inner parts and duct without the use of screws or tools.

To ensure enough space for the MFA mounting frame, the cutt-out dimensions must be 5 mm larger than the nominal size (L x H) of the grille.

Maintenance

Remove the grille to gain access to the inner parts or duct. Internal and external parts should be wiped with a damp cloth.

Order code

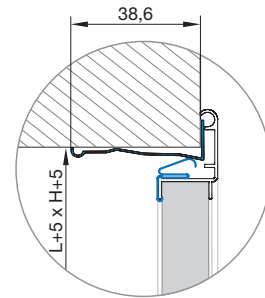

Product	MFA	ccc x ddd
Type		
MFA		
Size		
L: 100 - 1500		
H: 75 - 1500		

Example: MFA - 500 - 150

Min. - max. dimensions

The MFA mounting frame is available in sizes (L x H) - from 100 x 75 mm up to 1500 x 1500 mm in steps of 50 mm.

Special sizes are available on request.

When using the MFA for installation, the cutt-out dimension must be 5 mm larger than the nominal L x H dimension.

Materials and finish

MFA mounting frame:

Galvanized steel
