

Grilles Global version

VBX

Description

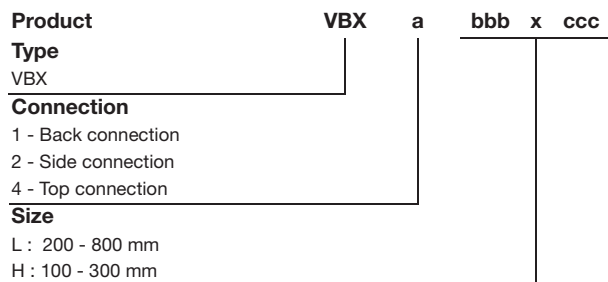

VBX is a plenum box for supply and extract air intended to achieve a stable flow to a rectangular grille or other types of face plates. VBX is equipped with an adjustment damper and pressure measurement device. The plenum box can be connected from the side, the top or the back. The adjustment damper is operated from the front of the box by means of a graduated handle with integrated locking mechanism. VBX is equipped with a telescopic connection for easy installation.

- Can be used for both supply and extract air.
- Easy-to-detach face plate for access to duct.
- Same box used for all front grilles of the Global version (AC, AD, AE, AL, AR).

Maintenance

The grille can be removed in connection with cleaning of the internal parts of the plenum box.

Order code

Example: VBX-2-600-200
